

8th Annual Central Pennsylvania Women's Spring Fling Golf Tournament

Proceeds Benefit

PinnacleHealth's Free Mammogram Program through the Triano Fund

The Triano family knows the devastating effects of cancer; Betty Triano lost her husband and two daughters, Elise and Nancy, to the disease. Through their battles, Betty and her daughters Karen, Diane and Joan decided to establish the Gene J. Triano, MD Memorial Endowment Fund, to preserve his memory as a radiologist who cared deeply for his patients.

The Triano Fund directly supports PinnacleHealth's Mammogram Voucher Program (MVP), which provides mammograms and additional breast cancer screenings to uninsured patients. Betty and her daughters view their family fund as Gene's final gift to the community, a memorial to their loved ones and a program that will help provide women in need with life-saving screenings for generations to come. Their gifts to the fund last in perpetuity and will make an impact on thousands of women in the community.

"Whether a donation is monetary, through a gift of time, or simply comforting someone who is grieving, giving back allows me to continue honoring my father and sisters' memories in some way. And I know that helping each other and sharing triumphs and tragedies is what makes us human," said Karen Triano Golin.
